

RCF and University of Modena and Reggio Emilia open applications for the 2026 Sound Engineering Postgraduate Course

# RCF and University of Modena and Reggio Emilia open applications for the 2026 Sound Engineering Postgraduate Course

Posted on February 26, 2026

Reggio Emilia, Italy—RCF, in collaboration with the Department of Sciences and Methods for Engineering (DISMI) at the University of Modena and Reggio Emilia (Unimore), has opened applications for the Postgraduate Course “Sound Engineering” for Academic Year 2025/2026.

Designed to develop both theoretical and practical competence, the program focuses on the

comprehension, analysis, and design of professional sound-reinforcement systems across acoustics, electroacoustics, electronics, and sound-system design. An international reference project developed by RCF engineers will be used as a common guideline throughout the course.

Led by course director Professor Emilio Lorenzani, the curriculum addresses acoustics in open-air and indoor environments, including design and simulation methods; transducers and loudspeaker systems, including clusters, arrays, and point-source configurations; electronics, including circuit analysis, filters, power amplifiers, and digital signal processing; and sound system design, supported by practical activities such as measurements, listening tests, and tuning.

### NAMM-2026-RCF

The program is delivered primarily online, with approximately 75% of lessons and practical activities available via distance learning in collaboration with Unimore's E-learning Center, while the remaining portion is delivered on site during a dedicated in-person session from September 14 to 17, 2026, hosted at the RCF Audio Academy and DISMI in Reggio Emilia, Italy.

The application deadline is March 18, 2026, at 1:00 p.m. CET, and online lessons will be available starting April 22, 2026. Applications and enrollment must be completed through Unimore's Esse3 online portal, and the official call for applications—available in both Italian and English—can be downloaded from the Unimore website. The enrollment fee is €850.
